

# SAVE International Module I Certification Course

## 40-hour Course Information

**Dates:** January 16-20, 2012

**Location:** 2255 N. 44<sup>th</sup> Street, S#125, Phoenix, AZ 85008

**Cost:** \$1,500.00 per person/ includes lunch and snacks, all materials and certificate of completion

**AVS Exam:** \$240.00 includes 1 year membership with SAVE International, the “value society”

**Other Credits:** The 40-hour course is certified with PMA and/or 40-Professional Development Hours for your registration

## WHO SHOULD ATTEND AND WHY!

This course is designed for individuals involved in planning, design and construction projects. This includes planners, architects, engineers, construction managers, contractors, cost estimators and owners. Since this seminar is approved by SAVE International, individuals planning to become Associate or Certified Value Specialists need to attend. If you are not familiar with SAVE International and/or the certification process, please ask.

**If you would like to provide a live project for the course, please contact us once you have enrolled. If more than one project is submitted, the project that best represents all of the training elements will be chosen by the instructor.**

## Instructor(s)

**Renee L. Hoekstra, CVS, President  
RH & Associates, Inc.**

Renee is a Certified Value Specialist with over 25 years of experience in the design and construction industry and over 18 years of facilitation and team leader experience. Renee has led over 900 teams over the past 18 years and has supplied value engineering training for introductory, Module I and Module II certification courses. Renee is the SAVE International Arizona Chapter President and recently served on the National Board for over 3 years. Renee has led the Module I and participated in the Module II Certification courses throughout the United States and abroad. She leads a very up tempo and enjoyable class, “learn while having fun”.

**Laurie Dennis, P.E., CVS-Life, LEED AP  
RH & Associates, Inc.**

Laurie is a past President of SAVE International and is currently the Executive Director for the SAVE Certification Board. She is a licensed professional engineer and Certified Value Specialist. She provides VE Leadership for RH & Associates and has more than 25 years of experience in engineering and design, construction management and project management. She has participated in all phases of project development, from site evaluation and value engineering studies through bid and award as well as on site construction management. Laurie is approved to teach both the Module I and Module II Certification Courses through SAVE International and has been providing training services and VE study leadership throughout the United States and abroad.
